Greenovate Director achieves LEED® Professional Accreditation

Columbus, OH – Hudson McFann, Director at Greenovate, LLC has achieved LEED Professional Accreditation by passing the rigorous Leadership in Energy and Environmental Design (LEED) exam.

As a LEED Accredited Professional (AP), McFann is recognized for demonstrating the knowledge and skills necessary to participate in the design and construction of building projects seeking LEED certification and to help facilitate and streamline the LEED application process.

The LEED Rating System supports global adoption of green building practices through the creation and implementation of universally understood and accepted tools and performance criteria.

Greenovate is Ohio's leading supplier of green building materials. With a commitment to forward-thinking design and construction, they serve residential and commercial customers throughout the state and neighboring region. Their diverse product collection—built upon high standards for integrity, quality, and sustainability—includes a range of flooring, carpeting, countertops, insulation, and sheet goods. For more information, visit www.greenovate.com.
